LIST OF CONTENTS

VOLUME 25 (1994)

Number 1

D. Ottoson, L. F. Agnati and K. Fuxe	iii	Foreword
Lars Olson	1	Commentary: Neurotrophins in neurodegenerative disease: theoretical issues and clinical trials
Vito De Gennaro Colonna, Silvano G. Cella, Marco Parenti, Vittorio Locatelli, Daniela Cocchi and Eugenio E. Müller	5	Neuroendocrine aging: its impact on somatotrophic function
Tõnis Timmusk and Madis Metsis	11	Regulation of BDNF promoters in the rat hippocampus
Giuseppe Biagini, Andrea Frasoldati, Kjell Fuxe and Luigi F. Agnati	17	The concept of astrocyte-kinetic drug in the treatment of neurodegenerative diseases: evidence for L-deprenyl-induced activation of reactive astrocytes
M. G. Giovannini, F. Camilli, A. Mundula and G. Pepeu	23	Glutamatergic regulation of acetylcholine output in different brain regions: a microdialysis study in the rat
A. McRae and A. Dahlström	27	Transmitter-loaded polymeric microspheres induce regrowth of dopaminergic nerve terminals in striata of rats with 6-OH-DA induced Parkinsonism
C. Edlund, M. Söderberg and K. Kristensson	35	Isoprenoids in aging and neurodegeneration
A. Cintra, J. Lindberg, G. Chadi, B. Tinner, A Möller, J. Å. Gustafsson, E. R. DeKloet, M. Oitzl, K. Nishikawa, L. F. Agnati and K. Fuxe	39	Basic fibroblast growth factor and steroid receptors in the aging hippocampus of the Brown Norway rat: immunocytochemical analysis in combination with stereology
Walter Fischer	47	Nerve growth factor reverses spatial memory impairments in aged rats
Luciano Angelucci	53	The hypothalamus–pituitary–adrenocortical axis: epigenetic determinants, changes with aging, involvement of NGF
G. Benzi, A. Gorini, R. Arnaboldi, B. Ghigini and R. F. Villa	61	Synaptosomal non-mitochondrial ATPase activities: age-related alterations by chronic normobaric intermittent hypoxia
F. Rubboli, J. A. Court, C. Sala, C. Morris, E. Perry and F. Clementi	69	Distribution of neuronal nicotinic receptor subunits in human brain
Janet Johnston, Cora O'Neill, Lars Lannfelt, Bengt Winblad and Richard F. Cowburn	73	The significance of the Swedish APP670/671 mutation for the development of Alzheimer's disease amyloidosis
Sandro Sorbi, Benedetta Nacmias, Marzia Mortilla, Paolo Forleo, Silvia Piacentini and Luigi Amaducci	81	Molecular genetics of Alzheimer's disease in Italian families
Piergiorgio Strata and Ferdinando Rossi	85	Cellular plasticity at the climbing fibre–Purkinje cell synapse as a model of plasticity in adulthood and ageing

Agneta Nordberg	93	Human nicotinic receptors—their role in aging and dementia
Bertil B. Fredholm and Nedret Altiok	99	Adenosine A_{2B} receptor signalling is altered by stimulation of bradykinin or interleukin receptors in astroglioma cells
	I	News Items

Number 2

M. Israël, B. Lesbats, M. Synguelakis and A. Joliot	103	Acetylcholine accumulation and release by hybrid NG108-15, glioma and neuroblastoma cells—role of a 16 kDa membrane protein in release
Kiyokazu Ogita and Yukio Yoneda	111	Partial purification of [^{3}H]glutamate-associating-proteins with sensitivity to displacement by *N*-methyl-D-aspartate from rat brain
M. Amalric, A. Ouagazzal, C. Baunez and A. Nieoullon	123	Functional interactions between glutamate and dopamine in the rat striatum
Katherine E. Reagan, Kenneth R. Wilmarth, Marvin Friedman and Mohamed B. Abou-Donia	133	Acrylamide increases *in vitro* calcium and calmodulin-dependent kinase-mediated phosphorylation of rat brain and spinal cord neurofilament proteins
A. Chéramy, J. M. Desce, G. Godeheu and J. Glowinski	145	Presynaptic control of dopamine synthesis and release by excitatory amino acids in rat striatal synaptosomes
Xiaojuan Xu and Edward F. Domino	155	Asymmetric cross-sensitization to the locomotor stimulant effects of phencyclidine and MK-801
Mira Melzacka, Nina Weiner, Christine Heim, Rainald Schmidt-Kastner, Maria Sieklucka, Karl-Heinz Sontag and Wolfgang Wesemann	161	Effect of transient reduction of cerebral blood flow on membrane anisotropy and lipid peroxidation in different rat brain areas
Muallâ K. Akinci and Graham A. R. Johnston	169	Sex differences in acute swim stress induced changes in the binding of AMPA (α-amino-3-hydroxy-5-methylisoxazole-4-propionic acid) and kainate to glutamate receptors in mouse forebrain
J. Garriga, M. Sust and R. Cussó	175	Regional distribution of glycogen, glucose and phosphorylated sugars in rat brain after intoxicating doses of ethanol
Hugues Greney, Giampiero Bricca, Monique Dontenwill, Jeanne Stutzmann, Pascal Bousquet and Alain Belcourt	183	Characterization of imidazoline binding protein(s) solubilized from human brainstem: studies with [^{3}H]idazoxan and [^{3}H]clonidine
Joanna Strosznajder, Marek Samochocki and Michael Duran	193	Serotonin, a potent modulator of arachidonic acid turnover, interaction with glutamatergic receptor in brain cortex
	201	Book Review
	I	News Items

Number 3

Peter R. Dodd, Heather L. Scott and Robert I. Westphalen	203	Invited Review: Excitotoxic mechanisms in the pathogenesis of dementia
Andrew J. Lawrence, Margie Castillo-Meléndez and Bevyn Jarrott	221	[^{3}H]Adenosine transport in rat dorsal brain stem using a crude synaptosomal preparation

Dana Giulian, Jun Li, Beth Leara and Charles Keenan	227	Phagocytic microglia release cytokines and cytotoxins that regulate the survival of astrocytes and neurons in culture
N. Hack and R. Balázs	235	Selective stimulation of excitatory amino acid receptor subtypes and the survival of granule cells in culture: effect of quisqualate and AMPA
Alan O'Connell, Bernadette Earley and B. E. Leonard	243	Changes in muscarinic (M_1 and M_2 subtypes) and phencyclidine receptor density in the rat brain following trimethyltin intoxication
T. Becker, G. Gombos and J. de Barry	253	Changes of pharmacological properties of (1S,3R)-ACPD-sensitive glutamate binding sites in developing mouse cerebellum
Yukio Yoneda and Kiyokazu Ogita	263	Rapid and selective enhancement of DNA binding activity of the transcription factor AP1 by systemic administration of *N*-methyl-D-aspartate in murine hippocampus
Yukio Yoneda, Riyo Enomoto, Kiyokazu Ogita, Hideaki Kabuto and Akitane Mori	273	Possible dysfunction of ionotropic glutamate receptors in cerebellum of epileptic E1 mouse brain
Steve Standley, Natalie Irvin and Michel Baudry	287	Differential subcellular localization of two populations of glutamate/AMPA receptors in the rat telencephalon
Z. Z. Guan, M. Söderberg, P. Sindelar and C. Edlund	295	Content and fatty acid composition of cardiolipin in the brain of patients with Alzheimer's disease
	301	Book Review
	I	News Items

Number 4

Aase Frandsen and Arne Schousboe	303	Effect of magnesium on NMDA mediated toxicity and increases in $[Ca^{2+}]_i$ and cGMP in cultured neocortical neurons: evidence for distinct regulation of different responses
Gregory Kapatos and Kei Hirayama	309	A comparison of the developing dopamine neuron phenotype in cultures of embryonic rat mesencephalon and hypothalamus
Basalingappa L. Hungund, Zhihong Zheng, Ling Lin and Amiram I. Barkai	321	Ganglioside GM1 reduced ethanol induced phospholipase A2 activity in synaptosomal preparations from mice
Lotfi Ferhat, Anne Bernard, Lluis Ribas de Pouplana, Yezekiel Ben-Ari and Michel Khrestchatisky	327	Structure, regional and developmental expression of rat MAP2d, a MAP2 splice variant encoding four microtubule-binding domains
Jonathan J. Dally and Susan A. Greenfield	339	The release of acetylcholinesterase *in vivo* is regulated by dopaminergic systems in the guinea-pig substantia nigra
Gabor Zoltay and Jack R. Cooper	345	Presynaptic modulation by dopamine and GABA opens a potassium channel in rat cortical, striatal and hippocampal synaptosomes via eicosanoids
T. Chikuma, T. Kocha, K. Hanaoka, T. Kato, Y. Ishii and A. Tanaka	349	Characterization of peptidylglycine α-amidating monooxygenase in bovine hypothalamus
Jiang Fan Chen, Vincent J. Aloyo, Zheng-Hong Qin and Benjamin Weiss	355	Irreversible blockade of D_2 dopamine receptors by fluphenazine-*N*-mustard increases D_2 dopamine receptor mRNA and proenkephalin mRNA and decreases D_1 dopamine receptor mRNA and mu and delta opioid receptors in rat striatum

D. F. Condorelli, N. Belluardo, G. Mudò, P. Dell'Albani, X. Jiang and A. M. Giuffrida-Stella — 367 Changes in gene expression of AMPA-selective glutamate receptor subunits induced by status epilepticus in rat brain

K. Wells, D. K. Anderson, A. A. Farooqui and L. A. Horrocks — 377 Excitotoxicity of glutamate and four analogs in primary spinal cord cell cultures

A. Theodoridu, C. Olenik, C. Boeckh, P. Ziefer, P. Gebicke-Härter and D. K. Meyer — 385 Interaction of protein kinases A and C in their effects on the proenkephalin gene in astroglial cells

Claudia Wolfman, Victoria Abó, Daniel Calvo, Jorge Medina, Federico Dajas and Rodolfo Silveira — 395 Recovery of central noradrenergic neurons one year after the administration of the neurotoxin DSP4

401 Book Review

I News Items

Number 5

Kyoji Morita, Shuichi Hamano and Motoo Oka — 403 Ionic factors affecting the association of tyrosine hydroxylase with chromaffin granules in the adrenal medullary cell

D. P. MacGregor, C. Murone and F. A. O. Mendelsohn — 413 The stability of angiotensin receptors and angiotensin converting enzyme in post mortem brain

Yasuhiro Itano, Yoshihisa Kitamura and Yasuyuki Nomura — 419 1-methyl-4-phenylpyridinium (MPP^+)-induced cell death in PC12 cells: inhibitory effects of several drugs

Fumiko Matsui, Eiji Watanabe and Atsuhiko Oohira — 425 Immunological identification of two proteoglycan fragments derived from neurocan, a brain-specific chondroitin sulfate proteoglycan

Christine Klinguer and Elisabeth Trifilieff — 433 Characterization and comparison of the polyclonal immune response to purified PLP and DM-20 in the Lewis rat: determination of a new antigenic determinant

Alan M. Palmer and Clara T. Reiter — 441 Comparison of the superfused efflux of preaccumulated D-[^{3}H]aspartate and endogenous L-aspartate and L-glutamate from rat cerebrocortical minislices

Rika Narihara, Masaaki Hirouchi, Tatsuya Ichida, Kinya Kuriyama and Eugene Roberts — 451 Effects of thyroxine and its related compounds on cerebral GABA receptors: inhibitory action on benzodiazepine recognition site in $GABA_A$ receptor complex

D. J. M. Reynolds, P. R. Lowenstein, J. M. Moorman, D. G. Grahame-Smith and R. A. Leslie — 455 Evidence for cholinergic vagal afferents and vagal presynaptic M_1 receptors in the ferret

Amar K. Pani and Michel Anctil — 465 Evidence for biosynthesis and catabolism of monoamines in the sea pansy *Renilla koellikeri* (Cnidaria)

Makoto Naoi, Wakako Maruyama, Sonoko Sasuga, Yulin Deng, Philippe Dostert, Sigeru Ohta and Tsutomu Takahashi — 475 Inhibition of type A monoamine oxidase by 2(*N*)-methyl-6,7-dihydroxyisoquinolinium ions

P. P. Gonçalves and A. P. Carvalho — 483 Effect of anions on the uptake and release of γ-aminobutyric acid by isolated synaptic plasma membranes

Mauro Giorgi, Rosanna Squitti, Paola Bonsi, Paola Paggi and Giovanni Toschi — 493 Activities of 3′: 5′ cyclic nucleotide phosphodiesterases in the superior cervical ganglion of rat: characterization, compartmentalization and observations in young and old animals

501 Book Review

I News Items

Number 6

Frédéric Saudou and René Hen — 503 Invited Review: 5-Hydroxytryptamine receptor subtypes in vertebrates and invertebrates

Stephen J. Peroutka — 533 Critique: 5-Hydroxytryptamine receptors in vertebrates and invertebrates: why are there so many?

J. M. Elliott, T. P. Flanigan, N. R. Newberry, T. Zetterström and R. A. Leslie — 537 Critique: 5-HT receptor sub-types: aspects of their regulation and function

Françoise Canonne-Hergaux, Jean Zwiller and Dominique Aunis — 545 cAMP and bFGF negatively regulate tropomyosin expression in rat cultured astroblasts

Alan O'Connell, Bernadette Earley and B. E. Leonard — 555 The neuroprotective effect of tacrine on trimethyltin induced memory and muscarinic receptor dysfunction in the rat

Hiroyuki Fukuda, Akira Nishida, Hiroshi Saito, Masami Shimizu and Shigeto Yamawaki — 567 Imipramine stimulates phospholipase C activity in rat brain

Isabel Llona, Wim G. Annaert, Wim Jacob and Werner P. De Potter — 573 Co-storage in large 'dense-core' vesicles of dopamine and cholecystokinin in rat striatum

D. A. Lowe, M. Emre, P. Frey, P. H. Kelly, J. Malanowski, K. H. McAllister, H. C. Neijt, C. Rüdeberg, S. Urwyler, T. G. White and P. L. Herring — 583 The pharmacology of SDZ EAA 494, a competitive NMDA antagonist
